Link to job information at [www.cpol.army.mil](http://www.cpol.army.mil) for more information.

**Duties:** Fabricates, repairs, modifies and installs a variety of sheet metal items having combined straight and curved edges or irregular curves and planes. The items include junction boxes, storage boxes, conduit boxes, library boxes, storage racks, ladders, ventilation duct work, shelters, etc. Plans and lays out the work by interpreting multiview blueprints, sketches, diagrams or from sample items. Selects or requisitions stock materials; uses complicated shop mathematics and measuring instruments; evaluates structural damage; and selects/utilizes required machines/equipment/tools to complete the fabrication, modification, repair and installation of sheet metal parts, items and assemblies. Travels as required to perform appropriate duties in support of mission requirements. Works with lower graded sheet metal employees. Trains and instructs these employees in the use of tools and measuring instruments, trade techniques, metal characteristics, blueprint reading, etc.

**Who May Apply:**

- ☐ This is a Delegated Examining Announcement open to all US Citizens.
- ☐ Interagency Career Transition Assistance Plan (ICTAP) eligibles.

**Qualifications:** Click on link below to view qualification standard.

**Trades and Labor**

☐ Qualifications Requirements: Applicants will be evaluated on their ability to perform the duties of a Sheet Metal Mechanic. Applicants must show competence in the following knowledges and abilities to perform the duties of the position. 1. Ability to do the work of a Sheet Metal Mechanic (Screen out). 2. Knowledge of Equipment, Structure, Materials, etc. (includes constructing, repair and forging) 3. Ability to Interpret Instructions, Specifications, etc. (includes blueprint reading) 4. Layout and Pattern Development (includes Geometric Projection and Triangulation) 5. Ability to Use Hand Tools, Power Tools, etc. for Metal Work 6. Dexterity (Assembly, Disassembly, Reassembly, etc) PHYSICAL EFFORT - Work requires prolonged periods of continuous exertion when bending and shaping complex or bulky sheet metal products. Also requires extended periods of standing and walking, climbing, working in cramped and awkward positions, and reaching, lifting, and bending while using hand and power tools. Weight lifted or physical force exerted to form sheet metal may occasionally exceed 50 pounds. WORKING CONDITIONS - Work is normally performed in well lighted, heated, and ventilated shop areas. Some outside work is performed usually in periods of good weather. Subject to cuts, bruises, falls and burns. Appropriate safety equipment such as hearing protection, safety shoes, gloves, safety goggles, respirators, etc., are required. You may claim veterans preference. You will be

required to submit appropriate documents (DD 214, VA letter dated within last 12 months) only if selected.
